This is a remote opportunity. The work is focused on After Effects and creative support. The company wants someone with strong motion graphics knowledge. Good communication and clear thinking are important.

You will help train next-generation AI systems. You will use your creative skill to review, explain, and improve motion design work. The role needs accuracy and strong attention to detail.

#### Key Responsibilities

- Create high-quality motion graphics using After Effects
- Review project files and creative workflows
- Give clear written and verbal feedback
- Work with different teams and share useful insights
- Explain animation and visual effects processes clearly
- Create documentation or tutorials when needed

- Check quality, accuracy, and consistency in deliverables

### Required Skills

- Mid-level experience in Adobe After Effects
- Good portfolio of motion graphics or visual effects work
- Knowledge of Adobe Creative Suite
- Good communication skills in writing and speaking
- Strong analytical skills
- Good eye for detail
- Ability to work independently
- Ability to manage tasks remotely
- Experience in feedback and documentation work

### Preferred Skills

- Experience with AI or machine learning projects
- Knowledge of expressions or Javascript in After Effects
- Experience in tutorials or educational content creation

The company says no prior AI experience is needed. Domain knowledge matters more here. This can be a good fit for someone who knows After Effects well and can explain creative work clearly.

### How to Apply

Send your email to the address shared above. Mention the position name in the subject line. The company also shared a WhatsApp group for job updates.
