DESCRIPTION

Company: Vedic Success

Position: AI Video Creator / Cinematic Video Editor

Industry: Digital Media / Content Creation

Location: Navi Mumbai, Maharashtra (Hybrid / Work From Home + Office)

Employment Type: Full Time / Freelance

Salary: ?30K-?60K/Month

HR Contact: +91 8454815742

Email: nilkanthkesari@gmail.com

Content Creation Work:

- create cinematic AI-generated videos based on scripts and concepts
- produce YouTube documentaries about vedic philosophy and success principles
- create YouTube shorts and reels for social media platforms
- develop course modules for premium learning programs
- create promotional trailers for launches and events
- repurpose long videos into short social media content

Role Responsibilities:

- transform scripts into engaging cinematic visual stories

- edit and produce professional quality videos
- maintain smooth storytelling flow and audience engagement
- apply color grading and audio design for cinematic feel
- design motion graphics and typography when required
- deliver final videos in 4K and 1080p formats
- prepare captions, subtitles and thumbnails for YouTube content

Required Skills & Experience:

- strong experience with AI video generation tools
- expertise in video editing software
- knowledge of motion graphics and visual storytelling
- ability to create cinematic color grading and sound design
- experience in creating engaging YouTube optimized content
- portfolio of AI generated cinematic videos required

Tools & Platforms Knowledge:

- AI video tools like Runway ML, Pika Labs, Synthesia, HeyGen, Kaiber, Deforum
- editing software such as Adobe Premiere Pro, Final Cut Pro, DaVinci Resolve
- motion graphics tools like After Effects or Apple Motion
- audio editing tools like Audition or Logic Pro
- asset platforms like Artgrid, Artlist, Envato Elements or Motion Array

Preferred Background:

- experience in spiritual, philosophical or educational content
- understanding of vedic teachings or interest in learning them
- ability to create videos using AI generated visuals and assets
- ability to deliver projects quickly without compromising quality
