DESCRIPTION

CADD Mastre Training Center

Work Mode: Work From Home Opportunity After Training

Course Type: BIM Training with Placement Support

Career Path: Remote BIM Projects and Freelance Work

Contact Details: +91 9021631799

About This Opportunity

This is a **training based career opportunity**. In this, you will learn **BIM (Building Information Modeling)**. After learning, you can work from home on **construction and design projects**. This field is growing fast and gives **long term career growth**.

Program Overview – BIM Modeling Learning Work

In this program, you will learn how to work on **digital building models**. Training is simple and practical. You will understand how real projects work.

What You Will Learn

- Basics of **BIM and modeling**
- Work on **3D, 4D, 5D, 6D, 7D BIM**
- Use of **advanced BIM software**
- Cloud based project collaboration
- LOD based modeling and coordination

Benefits

- Work from home career option
- Opportunity to work on **international projects**
- High salary growth in future

- Freelance and full time career options
- 100% placement support after course

Who Can Apply

- Students from **engineering or design field**
- Freshers who want career in BIM
- Professionals who want to upgrade skills

Career Scope

After completing this training, you can work as:

- BIM Modeler
- BIM Coordinator
- Design Professional

How To Apply

Interested candidates can contact directly on WhatsApp for course details and enrollment.

Apply Contact: +91 9021631799

Important Note

- This is a **training program, not direct job**
- Job support and guidance will be provided after course
- Good option for **future ready career**
