CERTIFIED SOFTWARE TESTING WORKSHOP

DESCRIPTION

Certified Workshop on Software Testing

Company: Techflare Innovations

Work Mode: Remote / In-Person Option Mentioned

Type: Certified Training Workshop

Contact Number: +91 9633222803, +91 8078409261

Techflare Innovations is offering a Certified Workshop on Software Testing. This is a training program, not a direct job opening. The workshop is meant for candidates who want to build skills in software testing and move into IT careers.

The workshop is offered by Techflare Innovations in Ernakulam. The post mentions both online and in-person learning options. It also mentions placement support after training.

This program is suitable for freshers, graduates, non-IT professionals, and working professionals who want to learn software testing. The training focuses on manual testing, bug reporting tools, basic automation, and project-based learning.

What You Will Learn

- Manual testing and test scenarios
- Bug reporting with JIRA
- Basic automation concepts
- Selenium introduction
- JMeter introduction
- Live project experience
- Resume building
- Interview preparation

The workshop is open to graduates from BCA MCA BSc BTech and other streams. It is also suitable for freshers who want to enter IT and non-IT professionals planning a career

shift.

The company says participants will get an industry-recognized certificate after training. Placement support is also mentioned in the post. Expert mentors and real-world projects are part of the workshop.

Who Can Join

- BCA MCA BSc BTech graduates
- Graduates from any stream
- Freshers looking for IT opportunities
- Non-IT professionals shifting to software field
- Working professionals who want to upgrade skills

Highlights

- Certified software testing workshop
- Online or in-person learning option
- Placement support after training
- Real-time project exposure
- Resume and interview support
- Industry-recognized certificate

The next batch date mentioned in the post is 30/06/2025. Candidates can contact the numbers below for workshop details and registration.
