Apply: Send your updated resume with a cover letter.

NCR Eduservices is hiring Computer Science Teaching Assistants to support online UG and PG students. The work includes academic guidance, assignment checking, student communication and coordination with professors.

Key Responsibilities

- Help students with academic questions and coursework.
- Conduct online one-to-one student sessions.
- Check and grade assignments.
- Explain topics and provide feedback to students.
- Track student progress and solve academic queries.
- Support professors and academic teams.
- Maintain regular communication with students.
- Complete grading and student support tasks on time.

Required Skills & Qualifications

- Ph.D. qualification is required.
- Minimum 2 years of tutoring or teaching experience.
- Experience in the EdTech industry.
- Excellent spoken and written English (C2 or native-level proficiency).
- Knowledge of Canvas or other Learning Management Systems (LMS).
- Familiarity with plagiarism-checking and grading tools.
- Good communication and organisational skills.
- Ability to explain complex topics in simple words.
- Knowledge of Computer Science and current technologies.
- Ability to manage multiple tasks independently.

Work Schedule

- 9 working hours per day.
- Work timing between 12:00 PM and 12:00 AM IST.
- Full-time remote position.
- Student support through chat, video and audio.

About the Company

NCR Eduservices provides educational support, online tutoring, content development and academic management services.

How to Apply
