DESCRIPTION

JOB LEVEL

P30

EMPLOYEE ROLE

Individual Contributor

About the Role:

Adobe's Genuine Engineering team is looking for a skilled C++ Development Engineer to join our versatile group and play a crucial role in developing and maintaining the unified library embedded within Adobe desktop products on Windows and macOS platforms. Our team is at the forefront of combating piracy of Adobe applications and services, as well as detecting and preventing fraudulent activities. Your technical expertise and innovative attitude will help protect Adobe's intellectual property and ensure the integrity of our products and services.

What You'll Do:

- Collaborate with a team of highly motivated and skilled engineers to deliver exceptional results.
- Design, develop, and maintain features in the GoCart or product hardening library, contributing to Genuine's team growth.
- Take ownership of features end-to-end, including requirements gathering, design, implementation, and creating unit and automation test cases.
- Troubleshoot and debug applications to resolve complex technical issues efficiently.
- Continuously improve existing features by identifying and addressing gaps in the system.
- Act as a proactive self-starter, employing innovative methods and techniques to achieve team goals.
- Serve as a guide on one or more platforms, understanding cross-platform challenges and

customer requirements.

- Contribute to the development and application of advanced concepts, technologies, and expertise within the team.
- Work closely with cross-functional teams to define, design, and deliver new features.

What You Need to Succeed:

- Educational Qualifications: Bachelor's or Master's degree in Computer Science or a related field, or equivalent professional experience.
- Professional Experience: 4+ years of hands-on design and development experience.
- Technical Expertise:
 - Strong proficiency in modern C++ and object-oriented programming.
 - Deep experience with debugging, profiling, and writing highly performant native code for platforms like macOS and Windows.
 - Solid understanding of computer science fundamentals, architecture, design, and performance optimization.
 - Familiarity with building features for large-scale applications.
 - Exceptional analytical and problem-solving abilities.
 - Excellent written and verbal communication, with the ability to work both independently and collaboratively in a team environment.
 - Familiarity with Agile development methodologies.

Why Join Us?

By joining Adobe's Genuine Engineering team, you will have the opportunity to work on challenging and impactful projects, collaborate with talented professionals, and contribute to safeguarding Adobe's products and services. Your work will have a tangible impact on Adobe's business and its customers worldwide. If you are passionate about leveraging your C++ expertise to make a difference, we'd love to hear from you!

Internal Opportunities

Creativity, curiosity, and constant learning are celebrated aspects of your career growth journey. We're glad that you're pursuing a new opportunity at Adobe!

Put your best foot forward:

1. Update your Resume/CV and Workday profile – don't forget to include your uniquely 'Adobe' experiences and volunteer work.
2. Visit the Internal Mobility page on Inside Adobe to learn more about the process and set up a job alert for roles you're interested in.
3. Check out these tips to help you prep for interviews.
4. If you are applying for a role outside of your current country, ensure you review the International Resources for Relocating Employees on Inside Adobe, including the impacts to your Benefits, AIP, Equity & Payroll.

Once you apply for a role via Workday, the Talent Team will reach out to you within 2 weeks. If you move into the official interview process with the hiring team, make sure you inform your manager so they can champion your career growth.

At Adobe, you will be immersed in an exceptional work environment that is recognized

around the world. You will also be surrounded by colleagues who are committed to helping each other grow through our unique Check-In approach where ongoing feedback flows freely. If you're looking to make an impact, Adobe's the place for you. Discover what our employees are saying about their career experiences on the Adobe Life blog and explore the meaningful benefits we offer.

Adobe is an equal opportunity and affirmative action employer. We welcome and encourage diversity in the workplace regardless of gender, race or color, ethnicity or national origin, age, disability, religion, sexual orientation, gender identity or expression, veteran status, or any other characteristics protected by law.

If you have a disability or special need that requires accommodation to navigate our internal careers site or to complete the application process, please contact accommodations@adobe.com.
