DRAFTER ACTALENT

HIRING ORGANIZATION

Actalent

EMPLOYMENT TYPE

Full-time

JOB LOCATION

Milwaukee, NA, WI, WI, United States

BASE SALARY

INR 30,000 - INR 35,000

DESCRIPTION

Overview

Our client, a telecom and utility engineering firm, is looking for an **AutoCAD Drafter** or **CAD Technician** skilled in **AutoCAD** and **ArcGIS** to join their team. This position focuses on creating **underground and aerial fiber layouts** for the telecom and utility industries.

Responsibilities

- Utilize **AutoCAD** and **ArcGIS** to develop underground and aerial fiber layouts.
- Generate **land base prints** in AutoCAD for field use.
- Complete **Utility Plan sets** for construction projects.
- Create **permit drawings** for various permitting authorities.
- Compile **job books** upon project completion.
- Import and export various file types to and from AutoCAD to facilitate project workflows.

Qualifications

- Proficiency in **AutoCAD**.
- Experience in **telecommunications** and **drafting**.
- Ability to collaborate in an inclusive, self-reflective environment that values care, engagement, and recognition.
