Makhija Power is hiring one District Head for every district in India. You will help expand the company's EV charging network. You will work from your own district with flexible working hours.

Company: Makhija Power

Position: EV Charging Expansion District Head

You will identify locations for EV chargers. You will meet property owners and business owners. You will coordinate with the technical team until successful installation.

Key Responsibilities:

- Find suitable locations for EV chargers.
- Meet business and property owners.
- Explain EV charging benefits.
- Generate qualified leads.
- Coordinate site surveys.
- Help with documentation and approvals.
- Support charger installation.

- Ensure successful commissioning.
- Build long-term business relationships.
- Share regular progress updates.

Target Locations:

- Hotels.
- Restaurants.
- Cafés.
- Hospitals.
- Schools and colleges.
- Residential societies.
- Commercial buildings.
- Office complexes.
- Shopping centres.
- Petrol pumps.
- Industrial units.
- Warehouses.
- Logistics parks.
- Highway properties.
- Public parking areas.

Eligibility:

- Minimum 12th pass.
- Diploma or graduate preferred.
- Freshers can apply.
- Good communication skills.
- Sales and negotiation skills.
- Business development mindset.
- Local area knowledge.
- Basic smartphone skills.
- Ability to work independently.

Preferred Background:

Candidates from sales, marketing, business development, banking, insurance, telecom, real estate, electrical, solar, automobile, or EV industry are encouraged to apply.

Earning Details:

There is no fixed salary. You will earn ₹1,000 for every successfully commissioned EV charger. There is no investment required. There is no earning limit. High performers can earn ₹1,00,000 or more per month.

Benefits:

- Work from your own district.
- Flexible working hours.
- No office attendance.
- No investment required.
- Unlimited earning potential.
- Complete training and technical support.

- Opportunity to build a strong business network.
