Alpha Rites is hiring an experienced Freight Broker for their logistics team. This position is for candidates who understand US freight operations. The company is looking for someone who can manage loads and carrier communication smoothly. This work needs good communication and negotiation skills. Candidates with logistics background can apply easily.

The company wants someone who can handle freight operations with confidence. You should be comfortable working in US shifts. You should also know how to manage shipment updates and delivery coordination. This opening gives good salary and career growth opportunities.

Main Responsibilities

- Source carriers for US domestic freight
- Negotiate freight rates and close loads
- Coordinate shipments from pickup to delivery
- Track loads and update clients regularly
- Handle shipment delays and issues
- Maintain records using TMS systems
- Meet monthly sales and margin targets

Skills Required

Candidates should have at least 1 year of freight broker or freight logistics experience. Knowledge of Dry Van, Reefer, and Flatbed operations is important. Good communication skills are required for this work. You should also be able to work in a fast moving environment.

Preferred Qualifications

- Existing shipper or carrier network
- Knowledge of TMS and CRM tools
- Understanding of DOT and FMCSA regulations
- Experience in US shift operations

Benefits

The company provides attractive incentives with salary. Cab facility is also available. Employees can get career growth opportunities with the team. Hybrid work flexibility is also offered.
