Role Overview

We are seeking a skilled and compassionate Fertility Staff Nurse to provide medical care, maintain clinical records, assist consultants, and support patients during procedures at the centre.

Key Responsibilities & Role Details

- Provide care to patients during outpatient and inpatient procedures
- Maintain, monitor, and update medical records and daily reports
- Verify consent forms and ensure proper documentation
- Oversee availability and maintenance of medical instruments
- Inspect crash cart and ensure drugs are stocked and up-to-date
- Supervise OT cleaning, conduct culture tests, and manage biomedical waste
- Coordinate with front desk and clinical coordinator for scheduling
- Administer injections and monitor vital parameters (height, weight, BP)
- Assist consultants during scans and medical procedures
- Maintain professional and compassionate patient interactions
- Respond calmly in emergency situations
- Prepare consumption reports and maintain stock records

- Enforce infection control and biomedical waste protocols

Eligibility & Skills Required

- B.Sc. in Nursing (Diploma preferred)
- 2–5 years of nursing experience (1 year preferred)
- Nursing license preferred
- Strong communication and interpersonal skills
- Excellent organizational abilities and attention to detail
- Ability to work effectively under pressure
- Fluent in Hindi (preferred)
