Internship Details

Company: Cliquelog IT Solutions Private Limited

Internship Type: Full-Time Internship

Duration: 3 Months

Location: Remote / Hybrid

Work Location: Hybrid remote in Madhapur, Hyderabad, Telangana

Certificate: Yes, completion certificate provided

About The Internship

This internship is for candidates who want practical learning. You will work on live client projects. You will also learn how real web products are built and shipped. The team is looking for people who are eager to learn and grow.

This is a hands-on opportunity. You will get support from experienced developers. You will also build strong project experience for your portfolio.

What You Will Work On

- Frontend and backend development
- Live client projects
- Website and dashboard systems
- API integration work
- Database handling
- UI implementation
- Responsive design
- Debugging, testing, and deployment support

Skills Needed

- Basic HTML, CSS, and JavaScript
- React.js or Next.js knowledge is a plus
- Node.js and Express basics
- MongoDB or SQL basics
- Git and GitHub understanding
- Interest in learning full stack development

Who Can Apply

- Students from B.Tech, BCA, MCA, Degree, or related courses
- Freshers who want practical experience
- Candidates interested in web development
- People who enjoy teamwork and problem solving

Benefits

- Internship completion certificate
- Live industry project exposure
- Mentorship from experienced developers
- Portfolio building opportunity
- Practical full stack learning
- Better teamwork and coding exposure

How To Apply

Send your resume and portfolio or GitHub profile if available. Use the email or WhatsApp details above. Share your basic details clearly.
