Job Type: Full-time

Salary: 25000-40000

Location: India

Email: Saitejhrzepto.hr@gmail.com

Contact HR: +91 9959084538

Job Description:

Chat support is real-time, text-based customer service via a website widget or app, allowing customers to get quick help from human agents or AI chatbots, offering convenience, speed, and multitasking ability compared to phone support. It's a popular channel for resolving immediate issues, with systems often using templates for fast responses and features for tracking visitors and capturing leads.

Key Features & Benefits

Real-Time Interaction: Customers chat directly with agents or bots for immediate answers.

Convenience: Customers can multitask, listen to music, or watch TV while chatting, unlike phone calls.

Speed: Resolutions can be very quick, often within seconds, reducing wait times.

Efficiency: Agents can handle multiple chats simultaneously, increasing productivity.

Accessibility: Available 24/7 through automated systems or global teams, with AI handling queries. All us Nowww 9959084538 Name gopala krishnaahri eries.
