Job Overview

This work is simple but needs regular calling and basic understanding. Main work is to find business owners and talk to them. You need to explain how a website can help their business grow. If person shows interest, then you just pass that lead forward. No hard work but consistency is needed.

Work Responsibilities

- Find business leads from internet like Google Maps
- Call business owners and talk about website benefits
- Explain in simple way how website helps in getting more clients
- Identify interested people and forward details
- Check if business already has website or not

Payment Details

Payment is based on performance. Fixed and incentive both available. ₹5000 per month is given if minimum 2 qualified leads are completed. ₹1500 extra is given for each qualified lead. Total earning depends on your work.

Target Industries

You can find leads from many simple local businesses like architects, interior designers, builders, doctors, clinics, gyms, salons, restaurants, coaching centers, small shops,

consultants and other local services like plumber or electrician.

Work Process

You have to search businesses on Google Maps. Example search like architects near area or in any city. Then check if they have website or not. If website is old or not working good, then you call them. Explain benefits of modern website and how it can bring more customers. If they agree or show interest, then share that lead.

Support and Training

No experience is required for this role. Full guidance is provided step by step. Even new person can learn easily if ready to do calling work.

Important Note

Only apply if comfortable with calling and talking to new people. Communication should be clear and simple.
