### **About the Work**

The selected tutor will conduct online classes for Class 11 and 12 students. The work includes teaching, lesson planning, doubt solving, and student progress support.

Candidates should have good subject knowledge and online teaching skills.

### **Key Responsibilities**

#### **Teaching Work**

- Conduct structured online classes
- Explain concepts clearly
- Help students improve learning and exam preparation
- Maintain proper teaching quality

#### **Study Material Support**

- Prepare lesson plans
- Create worksheets and practice materials
- Give regular feedback to students
- Track student performance and progress

#### **Online Coordination Work**

- Coordinate with Educatify academic team
- Use online teaching tools properly
- Maintain professionalism and punctuality

#### **Eligibility Criteria**

- Prior teaching experience is mandatory
- Strong command over Maths and Physics
- Good English communication skills
- Comfortable with Google Meet, Zoom, and digital whiteboards
- Ability to engage students online
- Stable internet connection required
- Proper teaching setup required

#### **Benefits**

- Flexible teaching schedule
- Supportive academic team
- Competitive payment based on experience
- Remote teaching opportunity

#### **Who Can Apply**

- Experienced online tutors
- Physics and Maths teachers

- Reasoning tutors
- Candidates comfortable with online teaching

**How to Apply**

Interested experienced candidates can send their resume and short introduction through WhatsApp or email.
