### Job Overview

This role is for production support work in FMCG industry. Work is mainly helping in daily factory production tasks, material handling, and supporting smooth workflow in manufacturing unit.

### Required Skills

- Basic understanding of production process
- Communication and teamwork skill
- Ability to work in shift if needed
- Awareness of safety and hygiene rules
- Experience in manufacturing or FMCG work

### Experience Requirement

- Minimum 1 year experience in FMCG or manufacturing field
- Supervising experience is a plus
- Diploma holders can apply

## Job Responsibilities

- Support daily production work in factory
- Check and manage raw material availability
- Assist machine operators and supervisors
- Maintain cleanliness in production area
- Follow safety and quality rules
- Help in packing, labeling and dispatch work
- Report production issues if any problem comes

## Work Environment

Work is in factory setup. Candidate should be ready for physical work and shift timing. Safety and hygiene rules must be strictly followed.

## Application Process

Interested candidates can send updated resume on email or contact directly on given number. Shortlisted candidates will be called for further process.
