Goldair Handling is a leading ground handling company in the liberalized Greek market, offering a complete range of passenger, ramp, and cargo services since 1999. With a presence at 26 airports in Greece and major international airports, Goldair Handling provides luxury lounges, PRM services, and consulting services in ground handling. The company has expanded its operations to India and other countries, establishing itself as a key player in the aviation industry.

Description

This is a full-time on-site role for a Pushback Operator at Goldair Handling in India. The Pushback Operator will be responsible for safely maneuvering aircraft on the ground, specifically during departure and arrival procedures. The role involves coordinating with the flight crew, ground crew, and air traffic control to ensure efficient and safe aircraft movements.

Qualifications

• Experience in aircraft pushback operations and ground handling

• Knowledge of aviation safety regulations and procedures

• Excellent communication and coordination skills

• Ability to work in a fast-paced and dynamic environment

• Physical fitness and ability to work in varying weather conditions

• Previous experience in airport operations is a plus

• Valid driver’s license and certifications in ground handling operations
