This job is for people who can do **careful checking of products in warehouse**. You will make sure items are **good quality before dispatch**. If you are detail-focused and serious about work, this job is suitable.

### Job Overview

In this role, you will work as a **Quality Control Executive**. Your main work is to check products and make sure only **good quality items go forward**.

### Main Responsibilities

- Check **incoming goods before approval**
- Do final **quality check before dispatch**
- Find defects in **finish, weight, polish or work quality**
- Maintain **QC reports and records**
- Mark items as **approved or rejected**
- Coordinate with suppliers for **rejected items**
- Ensure only **approved stock is used for sale**

- Suggest improvements for **better quality control**

## Requirements

- Bachelor degree preferred
- 1 to 3 years experience in **quality control field**
- Strong **attention to detail**
- Basic knowledge of **computer and documentation**
- Good understanding of **inspection process**

## Why This Job

This job is good for people who want stable **warehouse quality work**.

- Good salary package
- Stable office + warehouse environment
- Learn **quality inspection system**
- Growth opportunity in operations field
