REMOTE INFORMATICA IDMC MIGRATION CONSULTANT

DESCRIPTION

Senior Informatica IDMC Migration Consultant

Company: TWO95 International

Work Mode: Remote

Job Type: Contract

Project Duration: 14 Weeks

TWO95 International is hiring a Senior Informatica IDMC Migration Consultant for a 14-week contract project. This is a remote opportunity. The role is for experienced consultants who have worked on Informatica migration and cloud data governance projects.

The company is looking for someone who can handle migration from Axon EDC and IDQ to IDMC CDGC and CDQ. This role needs strong experience in data governance data quality and migration delivery. Financial services or regulated industry experience can be helpful for this opening.

This is a remote role. So no city or state needs to be added here. The company has shared an email ID for application.

Job Overview

The selected candidate will work on migration assessments and migration execution from on-premises Informatica tools to the IDMC cloud platform. The work includes metadata migration catalog migration enrichments migration rule migration validation and post-deployment support.

The role also includes client coordination knowledge transfer and issue resolution after deployment.

Key Responsibilities

TWO95 International

Jobs
<https://workvapor.in>

- Deliver migration assessments from Axon EDC and IDQ to IDMC
- Execute migration of catalog source configurations and enrichments from EDC to CDGC
- Migrate glossary associations business names descriptions data classifications custom attributes certifications ratings and stakeholder assignments
- Handle phased migration of EDC metadata sources using manual and tool-assisted approaches
- Migrate legacy IDQ rules and specifications to CDQ Rule Specifications
- Embed CDQ data quality transformations within CDI mappings
- Conduct post-migration validation UAT and knowledge transfer
- Provide post-deployment hyper-care issue resolution and performance tuning
- Ensure project milestone delivery and quality execution

The role needs someone who understands both the technical migration side and the governance side of Informatica platforms.

Preferred Qualifications

- Informatica IDMC Professional certification or equivalent
- Experience in banking insurance wealth management or other regulated industries
- Exposure to Informatica Claire AI or Copilot for metadata enrichment and governance automation

Key Skills

- Proven experience in Axon EDC and IDQ to IDMC migration
- Strong understanding of CDI and CDQ pipelines
- Experience with AI-enabled migration tools and accelerators
- Knowledge of data governance data quality and metadata migration
- Ability to support reconciliation and reduce migration risk during cloud transition

The company is looking for candidates who can work on complex enterprise migration environments and support delivery from assessment to handover.

How to Apply

Interested candidates can send their updated resume to the company email. They should also include their rate or salary requirement and a suitable time for contact.
