REMOTE MANUAL SOFTWARE TESTING INTERNSHIP FOR FRESHERS INDIA

BASE SALARY

INR 22000 - INR 39999

DESCRIPTION

StabIX Hiring Manual Software Tester Intern

StabIX is hiring Manual Software Tester Intern for remote internship. This is a work from home opportunity for candidates interested in QA and software testing.

Email: hr@stablx.com

The internship duration is 1 month. Working days are flexible. Candidates who complete the internship successfully may receive Certificate and Letter of Recommendation.

About The Company

StabIX builds modern software products with focus on speed reliability and user experience. The company works in startup environment and values product quality.

About The Work

The selected intern will test websites and web applications. The work includes bug reporting checking fixes and improving user experience.

This is a practical learning opportunity for candidates who want real startup experience in software testing.

Main Responsibilities

- Test websites and web applications
- Check features on desktop and mobile
- Find and report bugs

- Verify bug fixes
- Create test cases and scenarios
- Check UI and usability issues
- Support product release testing
- Work with developers and product team

Skills Required

- Basic website knowledge
- Attention to detail
- Communication skills
- Documentation skills
- Interest in QA and testing
- User perspective understanding

Bonus Skills

- Manual testing knowledge
- Jira or Trello understanding
- Google Sheets or Notion knowledge
- Browser developer tools knowledge
- API or automation testing basics

What You Will Learn

- Real startup workflow
- Manual testing process
- Bug tracking methods
- Product thinking
- Agile collaboration experience

Who Can Apply

- Freshers
- QA interested candidates
- Computer students
- Software testing learners
- Internship seekers

How To Apply

Interested candidates should send their resume with a short note explaining interest in QA or testing. Candidates can also mention websites or apps they tested before.
