DESCRIPTION

Video Editor

Company: D.K. Enterprises | Troost

Work Mode: Remote

Job Type: Full-Time / Freelance

Experience: 1 to 2 Years

Hiring Office: Panipat

Contact Email: mehul@troost.in

D.K. Enterprises is hiring a Video Editor for performance ads. This is a remote opening. The work is for Meta platforms like Facebook and Instagram. The company wants someone who can make ads that grab attention fast.

You will edit short and fast-paced video ads. You will also work on hooks text overlays pacing and CTA flow. The focus is on ad performance and better conversions.

This role is for candidates who understand direct response style editing. The team wants someone who can test versions and improve creatives based on results. The work may be full-time or freelance based on requirement.

What You Will Do

- Edit performance ads for Meta platforms
- Create strong hooks in the first few seconds
- Add captions text and copy overlays
- Keep pacing tight and engaging
- Work on multiple ad versions for A/B testing
- Support creative changes based on performance data

The company is looking for someone with proven video ad editing experience. Good

knowledge of Meta ad formats and best practices is important. You should also know how to make content that holds attention.

Premiere Pro and After Effects are preferred tools. Quick turnaround and attention to detail are important too. Experience with AI editing tools like CapCut AI Runway or ElevenLabs will be a bonus.

Skills Required

- Video editing experience
- Meta ads knowledge
- Strong hook building
- Motion graphics
- Text placement
- Visual storytelling
- Good pacing and rhythm
- Premiere Pro or After Effects

The role is suitable for candidates who have worked in performance marketing or with media buyers. The company wants ads that actually perform. So portfolio work matters a lot.

How to Apply

Send your portfolio or reel with recent ad work to the email below.
