SAP ABAP TECHNICAL CONSULTANT WORK OPPORTUNITY

DESCRIPTION

Job Role: SAP ABAP Technical Consultant

Company: Elyxir Management Consultants

Location & Work Mode: Remote | Work From Home

Experience: 4–6 Years

Employment Type: Full-Time | Permanent

Contact Details: 9980386727

Description:

This job is for SAP ABAP experts who like solving technical problems. You will work on projects, help implement solutions, and use ABAP tools. Learning and teamwork are important. Good attention to detail is needed.

Your Responsibilities

- Work on SAP ABAP implementation projects
- Develop using Core ABAP, OOABAP, ABAP on HANA
- Create Web Dynpro applications and OData services
- Build Core Data Services (CDS) for reporting and integration

Skills Needed

- Strong knowledge of SAP ABAP technical modules
- Experience with Web Dynpro and OData Services
- Familiarity with ABAP on HANA and CDS
- Problem-solving and detail-oriented approach

This is a great opportunity for early joiners to work on modern SAP projects remotely.

How to Apply:

Share your CV via Email: shivkumar@elyxyrhr.com or WhatsApp: 9980386727. Mention your expected CTC and notice period.
