Job Description:

We are offering a skill-based work opportunity available in both part-time and full-time modes. Experienced candidates can join free of cost, while beginners will receive structured training (training charges apply only for selected candidates). This is a partnership-based model with no fixed salary. You will earn a 35% incentive on every completed project. For example, completing a ₹5,00,000 project gives you ₹1,75,000 incentive. Work anytime at your convenience; even if you skip days, there is no issue—payment depends only on completed tasks.
