Email: hello@curacious.in

The ideal candidate has 2–5 years of video editing experience, strong storytelling skills, and proficiency with AI tools and VFX to create cinematic trailers and advertisements.

Key responsibilities:

- Edit AI-generated advertisements, cinematic trailers, and digital films
- Apply advanced editing techniques including transitions, pacing, sound design, and storytelling
- Collaborate with creative teams to bring concepts to life
- Add basic VFX and motion graphics using After Effects where required
- Work with AI video tools like Kling 3.0, Nano Banana Pro, or similar

Required skills & experience:

- 2–5 years of professional video editing experience
- Proficiency in Adobe Premiere Pro and Adobe After Effects
- Strong understanding of editing, transitions, and trailer-style storytelling
- Basic knowledge of VFX and motion graphics
- Familiarity with AI video tools
- Strong visual sense and attention to detail

- Mandatory showreel submission

Benefits:

- Work from home
- Opportunity to work with cutting-edge AI creative tools

How to Apply:
