About the Job

GAOTek Inc. is hiring PhD-qualified professionals for its global technology team. The role focuses on research, innovation, and technology strategy. Advisors will work closely with the CEO.

Key Responsibilities

- Research emerging technologies, including AI and IoT.
- Evaluate new technologies and innovative solutions.
- Support technology strategy and research projects.
- Prepare reports and presentations.

- Analyze technical information and suggest improvements.
- Work with senior teams on strategic initiatives.
- Use AI tools to support research and analysis.

Requirements

- PhD in Computer Science, Electrical Engineering, Electronics Engineering, ECE, Telecommunications, Software Engineering, or a related technical field.
- Strong research and analytical skills.
- Excellent critical thinking and decision-making abilities.
- Ability to explain complex technical topics clearly.
- Experience preparing reports and presentations.
- Strong attention to detail.
- Own laptop or PC and reliable internet.
- Good English communication skills.

Salary & Benefits

- Compensation depends on qualifications, experience, and interview performance.
- 100% work from home.
- Paid sick time and paid time off.
- Global exposure to AI, IoT, and emerging technologies.
- Opportunity to contribute to strategic technology decisions.

How to Apply

Send your updated CV or resume by email. Use the subject line **“Application – Technical Research & Innovation Advisor – PhD.”**

Email: Hire-India-C@thegaogroup.com

Important: A relevant PhD qualification is mandatory.
