## WALK-IN INTERVIEW FOR CIVIL SITE ENGINEER

### DESCRIPTION

### Job Title: Site Engineer (Civil, Mechanical, Electrical, HVAC)

Location: Singapore, UAE, Europe

Job Type: Full-Time

Salary: .00 INR .00 INR per Annum

Benefits: Health, Transportation and insurance benefits.

#### Job Overview:

We are seeking a highly skilled and dedicated Site Engineer with expertise in Civil, Mechanical, Electrical, and HVAC systems for a construction project. The successful candidate will play a crucial role in overseeing and coordinating the site activities, ensuring the project progresses according to schedule, within budget, and to the highest standards of safety and quality.

#### Key Responsibilities:

Supervise and manage day-to-day activities at the construction site for Civil, Mechanical, Electrical, and HVAC works.

Oversee the implementation of project plans, including drawings, specifications, and timelines.

Collaborate with project managers, subcontractors, and clients to ensure that all engineering disciplines are integrated into the project.

Ensure that construction work is carried out in compliance with safety regulations, quality standards, and environmental requirements.

Review and approve technical drawings, plans, and specifications.

Conduct site inspections and provide technical support to workers on-site.

Coordinate and manage the procurement of materials, equipment, and labor for various aspects of the project.

Prepare and submit regular reports on progress, issues, and delays.

Troubleshoot and resolve technical issues related to Civil, Mechanical, Electrical, and HVAC systems on-site.

Work with the project team to monitor and control project costs and schedules.

Requirements:

Diploma or Bachelors degree in Civil Engineering, Mechanical Engineering, Electrical Engineering, or a related field.

Proven experience (2+ years) in site engineering for Civil, Mechanical, Electrical, or HVAC projects.
