DATE POSTED

? March 6, 2026

Email Infrastructure Setup:

- Configure sending domains and subdomains for outreach campaigns
- Setup and manage SPF, DKIM, DMARC, MX records and DNS configuration
- Configure Google Workspace or Microsoft 365 mailboxes for email outreach
- Ensure proper DNS propagation and authentication validation
- Setup tracking domains and custom sending domains

Deliverability Management:

- Implement domain warming and mailbox warming strategies
- Monitor inbox placement, sender reputation and spam risks
- Manage sending limits and domain rotation strategies
- Troubleshoot blacklist issues and deliverability problems
- Maintain healthy email infrastructure across multiple domains

Platform Setup & Integration:

- Configure and manage outreach platforms like HubSpot, Apollo.io, Instantly.ai

- Setup email accounts and integrate them with marketing platforms
- Monitor deliverability and campaign infrastructure
- Support outreach teams in launching campaigns

Campaign Support:

- Assist marketing teams in deploying outreach campaigns
- Monitor bounce rates, spam complaints and domain health
- Apply best practices for global email outreach campaigns
- Maintain proper documentation of sending infrastructure

Required Skills:

- Strong knowledge of DNS configuration and email authentication
- Experience with SPF, DKIM, DMARC, MX Records and Reverse DNS
- Experience managing multiple sending domains and mailboxes
- Hands-on experience with HubSpot, Apollo.io or Instantly.ai

Experience Requirements:

- Minimum 3+ years experience in email marketing infrastructure or deliverability
- Experience supporting cold email outreach or outbound marketing teams
- Experience managing domain and mailbox setup for global campaigns

Work Model:

- Phase 1: Remote work
- Phase 2: Office-based role in Noida Sector 62

Growth Opportunity:

- Opportunity to help build global email outreach infrastructure
- Chance to lead a future email marketing and deliverability team
